1. Introduction

1.1 Background

The Transport department functions under the provisions of section 213 of Motor Vehicles Act, 1988. The Transport Department is primarily established for enforcement of the provisions of Motor Vehicles Act,1988, Madhya Pradesh Motor Vehicles Taxation Act,1991 and the rules framed under these two Acts.

1.2 Overview

- Tax Assessment and Deficiency Chart is used for vehicle owners to identify the pending tax amount. In case of any pending amount crossing threshold date of payment, it reflects the penalty amount as well.
- The Old Chart which was in use previously was complicated and with this release there is an attempt to make it simple and lucid.
- OLD tax on Buses in the OLTP portal is for the tax amount pending before December 2018.
- Tax on Buses is attempt to make the tax calculation on the move as we open the application for calculating the tax.
